

SharePoint Source Reconciliation Report — CompleteWD Knowledge Base

Compiled by cross-referencing the KB's 10 sections against live SharePoint search results from ar@completewd.com. Read-only — nothing in SharePoint was modified. Where a doc cited by the KB couldn't be independently re-located, that's called out explicitly rather than guessed at.

For Serge/Marie: use this to cross-check each KB section against the real source files before more content/features get built on top.

001 — CRM Playbook (Builder Prime)

No SharePoint source expected — this section is pulled from the Builder Prime CRM tool itself, not SharePoint. A supporting-docs search for "Builder Prime" turned up adjacent reference material that *could* be worth cross-checking but is not the primary source:

- [Bucket Cheat Sheet - BP Clients.docx](#) — AdminTeam/Testing channel/Lead Intake, modified 2026-04-30
- [Builder Prime Mobile App Overview.url](#) — 2025CWD/CompleteWD All Hands, modified 2025-01-30
- [Builder Prime Training Demo - Admin Resources.pdf](#) — OfficeManagement/Processes/LADR, modified 2025-01-08

No dedicated "Builder Prime SOP" doc exists — confirms the KB page's own framing that this content lives natively in the CRM, not in a SharePoint file.

002 — Org Chart

No explicit "Source:" line on the page, but 010-HR cites "Organization Chart & Roles" — this resolves to one primary folder plus a visual chart file:

- **Primary folder:** [Human Resources/Organization Chart & Roles & Responsibilities](#) (OfficeManagement site) — contains individual role-description docs: Chief Executive Officer CEO.docx, Chief Operating Officer COO.docx, Office Manager.docx, Project Coordinator.docx, Service Manager.docx, Administrator.docx, Inside Sales Representative.docx, Accounts Payable Clerk.docx, Health & Safety Manager Checklist.docx, etc. (all modified 2025-09-05, i.e., built as a batch)
- [Org Chart Marie Version with Roles Sep 2 2025.xlsx](#) — the actual org-chart data file (Employee ID/Name/Title/Manager ID), modified 2025-11-11
- [KPI Measurables chart 2026.xlsx](#) — same hierarchy data, repurposed for KPI tracking, modified 2026-01-05

⚠ **Two versions of the org-chart data** — worth flagging: "Org Chart Marie Version..." and "KPI Measurables chart 2026" contain overlapping Employee ID/Manager ID hierarchies that may have drifted from each other.

003 — Marketing & Lead Source

Cited: "*Lead Source & Monthly Spend SOP / Checklist, SharePoint (last updated May 15, 2026)*" — confirmed, but the same file exists in **two separate locations**:

⚠ **Duplicate filing — same doc in two places:**

- [Marketing - Lead Source and Monthly Spend SOP.docx](#) — AdminTeam/Testing channel/Lead Intake, modified 2026-05-15

- [Marketing - Lead Source and Monthly Spend SOP.docx](#) — OfficeTeam/Operations/Process Folder/OFFICE/TEMPLATES, modified 2026-05-15 (identical timestamp — likely a copy, not a fork)
- [Marketing - Lead Source and Monthly Spend SOP.pdf](#) — PDF export, same folder, modified 2026-05-15

Plus the companion chart:

- [Marketing - Lead Source and Monthly Spend CHART.docx](#) — modified 2026-05-15
 - Also relevant: [Marketing - Lead Source Checklist.docx](#) — the monthly checklist companion, modified 2026-05-15
-

004 — Admin & Finance

Cited: *"Admin/Finance HOW TOs & checklists, SharePoint (Process Folder + HR Policies)"*

- [Weekly Checklist - Admin.docx](#) — Process Folder/.../Moved to Process files (final), modified 2025-10-28
- [Filing Office Road Map .docx](#) — Process Folder/OFFICE/TEMPLATES, modified 2026-03-27
- **2022 - HCP Questions.docx** — confirmed embedded in the live KB page (iframe sourcedoc {B7CE4562-71FB-4266-9E3F-C8D921B79D9E}, site OfficeTeam) but could **not** be independently re-located via search in this pass — the KB's own embed link is: [Open in SharePoint](#). Recommend Serge/Marie verify this one directly.
- [HOW TO - Cash Outs.docx](#) — modified 2025-06-24
- [HOW TO - Preparing Folders for Cash Outs.docx](#) — modified 2026-01-13
- [HOW TO - To-Dos Process.docx](#) — modified 2025-11-05 (also a copy under Process Folder/.../Moved to Process files (final))
- [HOW TO - Email Inbox Confirmations.pdf](#) — modified 2025-04-02
- HR Policies side: [Human Resources/Policies & Procedures/TEMPLATES](#) folder (OfficeTeam site) — confirmed to exist (holds

a copy of Service charge breakdown.docx, see Section 008)

△ Note: the KB page itself flags "General Mailbox" and "Take a Payment" as 2023-era HCP-legacy docs — not independently re-located by title in this pass; worth a direct folder browse of Process Folder/OFFICE to confirm they're still there.

005 — Sales

No distinct SharePoint source — confirmed. This section is explicitly a checklist-view derived from the CRM Playbook (001) plus its own day-to-day content; a light search for "Sales SOP/checklist" and "daily guidelines/closing the sale/rehash" returned nothing that reads as a dedicated source document. The only Sales-folder document surfaced was:

- [Builder Prime Fees and Commissions.docx](#) — OfficeTeam/Sales, modified 2026-07-10 (adjacent, not a direct source for this page's checklist content)

Recommend treating 005 as "no distinct SharePoint source" per the KB's own framing.

006 — Scripts & Talk Tracks

No single dedicated source doc found. The KB page states these were pulled from existing SharePoint templates (Office Team + LADR handoff docs), most marked "DRAFT." Targeted searches for the specific script names (Office Admin Script for Post Estimate, CEI/ Customer Experience Index script, Booking Script) did not surface matching SharePoint files by title or content in this pass. The LADR handoff area does exist and contains related numbered workflow docs:

- [5. Administrative Tasks Workflow - FINAL.docx](#) — modified

2025-04-15

- [7. Customer Follow-Ups & Reporting Workflow - FINAL.docx](#) — modified 2025-04-15

These are process workflows, not word-for-word call scripts, so they're adjacent context at best. **The actual script source files were not located — recommend a direct SharePoint folder browse (Processes/LADR/Client Final SOP Handoff) rather than relying on this search pass.**

007 — Production & Installation

Cited: "*SharePoint Operations/Process Folder*" — confirmed, with all three flagged change-order docs and both remeasure-workflow docs located:

△ **Three change-order docs in circulation — needs reconciliation:**

- [HOW TO - Change Order Process.docx](#) — modified 2025-12-04
- [HOW TO - Change Order & Additional Scope Process.docx](#) — modified 2026-01-21 (newest)
- [DARFT HOW TO - Change Order .docx](#) — modified 2025-12-04 (note filename typo "DARFT")

△ **Two remeasure-workflow docs in circulation — needs reconciliation:**

- [Remeasure Process Workflow \(Post-Upload\).docx](#) — modified 2025-07-16
- [Remeasure Process Workflow \(Post-Upload\)2.docx](#) — modified 2025-07-18 (2 days later — likely the intended revision, but filename suggests it was never renamed/cleaned up)

Other Production & Installation docs found:

- [HOW TO - Post-Remeasure Process for Salesman.docx](#) — modified 2025-10-23
- [Remeasure Technician - Installation Time & Labour Baseline](#)

[Checklist.docx](#) — modified 2026-03-10 (+ a PDF export modified 2026-03-09, and a same-named doc under Human Resources/... — [Remeasure Technician Site Checklist.docx](#), modified 2025-09-05 — a related but distinct checklist, worth checking it isn't a fourth overlapping doc)

- [Installers July 9 Meeting processes & Checklists.docx](#) — modified 2025-07-09
-

008 — Service

Cited: *"SharePoint Operations/Process Folder (Service Request Process templates) + Human Resources docs (rate sheets, chargeable inspection SOPs)"* — confirmed, and **both flagged conflicts are real, located, and clearly reconcilable side-by-side:**

⚠ **Rate-sheet conflict (2026 rates vs. Feb 2025 breakdown) — needs reconciliation:**

- [CWD Service Rates - 2026.docx](#) — OfficeManagement root, modified 2026-05-22 (the KB treats this as authoritative for being newest)
- [Service charge breakdown.docx](#) — Process Folder copy, modified 2025-02-03
- [Service charge breakdown.docx](#) — **second copy** under HR Policies & Procedures/TEMPLATES, modified 2024-05-30 (older than the Process Folder copy — three-way version drift)
- [2025 Service Charge Breakdown.pdf](#) — Production folder, "Effective As Of: February 2025," modified 2025-02-03

⚠ **Inspection-fee schedule conflict — needs reconciliation:**

- [Service Inspection Chargeable Products - Admin.docx](#) — 5-tier fee schedule, modified 2026-06-29
- [Service Inspection Chargeable Products - Service Tech.docx](#) — companion tech-side version, modified 2026-06-09
- [HOW TO - Inspection fee process - PM & Insurance Companies.docx](#) — 3-tier fee schedule (the conflicting one),

modified 2025-12-03

- [Service Inspection Chargeable Non CWD Products.pdf](#) — adjacent scope doc, modified 2026-03-28

△ **Duplicate Client Review & Setup docs (Service Coordinator vs. Production) — needs reconciliation:**

- [DRAFT HOW TO- 2. Service Request Client Review & Setup - Service Coordinator.docx](#) — modified 2026-06-16
- [DRAFT HOW TO- Service Client Review & Setup \(Production\).docx](#) — modified 2026-03-05 (older, filed one level up from the Service Request Process subfolder — itself a filing inconsistency)

Also: [DRAFT HOW TO- 1. Service Request Intake & Processing - Service Tech.docx](#) — modified 2026-06-09

009 — Ordering & Vendor

Cited: *"SharePoint Operations/Process Folder (Ordering & Job Costing templates), Manufacturer Credits SOP, Operations/Vendors + Vendor Statements & Reports, and Production Meeting Minutes (overstock/Kijiji)"*

Ordering & Job Costing chain (4 of 5 located — △ duplicate "2" numbering confirmed):

- [DRAFT HOW TO- 1. Ordering Initial File Review Prior to Ordering.docx](#) — modified 2026-05-22
- [DRAFT HOW TO- 2. Ordering Measurement Prep for Ordering.docx](#) — modified 2026-05-22
- **"DRAFT HOW TO- 2. Ordering Special Order Items.docx"** — also numbered "2" per the KB's own Open Questions note; could **not** be independently re-located by search in this pass — recommend a direct folder browse of Process Folder/OFFICE/ TEMPLATES to confirm it's still there and grab its link
- [DRAFT HOW TO- 3. Ordering Job Costing - Excel](#)

[Spreadsheet.docx](#) — modified 2026-05-22

- [DRAFT HOW TO- 4. Ordering Job Costing - CRM.docx](#) — modified 2026-05-22

Manufacturer Credits: No file titled "Manufacturer Credits SOP" was located by direct search. Adjacent/supporting docs found instead:

- [Vista Credit app. Dec 2025.docx](#) (+ PDF copy) — Operations/Vendors/Vista, modified 2025-12-10 — this is the credit-application template the KB's "Gentek-filed credit app, dated Jan 2025" content likely derives from/relates to
- [Gentek-ALIGN-Warranty ENG.pdf](#) — modified 2024-08-02
- Recommend Kate/Serge confirm directly whether a standalone "Manufacturer Credits SOP" document exists under Operations/Vendors or a similarly-named subfolder not surfaced by this search pass.

Vendor Statements & Reports: confirmed folder exists (OfficeManagement site) with multiple files:

- [Merchant Statement 2231491 JAN 2024.pdf](#) (and several other months, First Data subfolder)
- [south Barrie Transfer - disposal credit app Feb 2025.pdf](#)
- [Royal Jan 13, 2026.pdf](#)

Production Meeting Minutes (overstock/Kijiji) — found 4, matching the KB's own count of "four separate Production Meeting minutes/agendas":

- [2026.05.12 Production Minutes.docx](#)
- [2026.06.30 Production Minutes.docx](#)
- [2026.07.16 Production Meeting Agenda.docx](#)
- [2026 Production Minutes Action Checklist.docx](#) (A May-2025-dated one mentioned in the KB's framing wasn't independently located — these four span May–July 2026 in what I found.)

No master vendor list — confirmed: no file matching this description was found anywhere in Operations/Vendors or elsewhere.

010 — HR & Onboarding

Cited: "SharePoint Human Resources (Policies, Employee Handbook, Organization Chart & Roles)"

⚠ **Five overlapping Employee Handbook drafts — confirmed, all five located, "TT Draft" treated as primary per the KB:**

- [Employee Handbook Template work in progress - TT Draft.docx](#) — **primary per KB**, modified 2026-01-22 (newest)
- [Employee Handbook Legend to be reorganized its a mess Dec2024.docx](#) — modified 2025-07-08
- [Employee Handbook Template 2024 WITH NEW LEGEND.docx](#) — modified 2025-01-15
- [Employee Handbook Template 2024 test cover page ORIGINAL LAYOUT.docx](#) — modified 2025-01-15
- [Employee Handbook Template 2024.docx](#) — original, modified 2024-07-11 (oldest)

(Note: three more files with "Employee Handbook" in the name turned up under Advertising & Marketing/.../Cass Bot Templates/Export — these are generic PowerPoint/PDF design-template exports, not actual company handbook content, and are excluded from the count above as not genuinely competing drafts.)

Organization Chart & Roles: same folder/files as Section 002 above — [Human Resources/Organization Chart & Roles & Responsibilities](#).

HR Policies:

- [Human Resources/Policies/Health & Safety Policies](#) folder — confirmed, contains e.g. [2026.05.26 - Vehicle & Driver Safety Policy.docx](#), modified 2026-05-29
 - [Health and Safety Manual - Version 1.pdf](#) — modified 2022-06-07
 - [Sick-Leave-Guide.pdf](#) — modified 2019-01-03 (dated — worth a currency check)
-

Summary — what needs Serge/Marie's attention first

1. **008-Service** — three separate conflicts (rate sheet, inspection fee schedule, duplicate Client Review & Setup docs), all sitting side-by-side above for a quick read.
2. **010-HR** — five Employee Handbook drafts; confirm "TT Draft" really is the one to standardize on and archive/delete the other four once confirmed.
3. **007-Production** — three change-order docs + two remeasure-workflow docs; the "2" suffix on one remeasure file suggests it was meant to replace the other but was never cleaned up.
4. **009-Ordering** — the "Special Order Items" doc (also numbered "2") and any standalone "Manufacturer Credits SOP" doc could not be independently re-located in this pass — worth a direct SharePoint folder browse rather than assuming they're missing.
5. **006-Scripts** — the actual script source files (Office Admin Script, CEI call script, Booking Script) could not be located by search — this section's sourcing is the weakest-verified of the ten and may need Kate to manually re-trace where she originally pulled it from.
